

ACROSS THE ONION addendum

Here is a list of references to locations in E Montpelier mentioned in "**Across the Onion**". Most comments reference property owners from 1983, the year the book was written. We updated these locations to use street addresses that can be found on GPS and Google Maps as well as the town land records.

Google Maps is an excellent tool to find addresses in this list: <https://www.google.com/maps/>

Reference in "Across the Onion" is in quotes " ... " followed by updated information in parenthesis (...)

References to paragraphs: TOP = text before first paragraph. Paragraphs are numbered, each reference is lettered.

This information added is based on interviews with local residents, information in "Across the Onion" and the Wallings Map from 1858 and FW Beers map from 1873. We have done our best to be accurate, but we're sure residents will find corrections, so let us know! Contact Jennifer Boyer at vtpots@gmail.com or 802-522-3841.
